

Smoke Grenade Launcher System Test Dummy & Maintenance Kit

SMOKE GRENADE LAUNCHER SYSTEM TEST DUMMY

- The test dummy has been specially designed to simulate 76mm smoke ammunition. With this dummy, the mechanical and Electronical status of the launcher can be tested in seconds as well as the ignition function. With the firing command, the LED and Buzzer on the test dummy are activated and it is confirmed that the launcher is operational.

- 1. Buzzer
- 2. LED
- 3. Activation strips
